1

Diagram showing the luminaire being prepared. A circular panel is being attached to the main body. Hands are shown holding the panel.

2

Diagram showing the luminaire being mounted to the ceiling. A screwdriver is used to tighten the mounting screws. A power switch is shown in the 'OFF' position.

3

Diagram showing the luminaire being connected to a power supply. The power supply is labeled '~230 V'. The luminaire is shown being inserted into the ceiling. A power switch is shown in the 'ON' position.

4

Diagram showing the final assembly. A circular panel is being attached to the luminaire. A warning icon is shown. A circular inset shows a hand removing protective foil from the luminaire. A power switch is shown in the 'ON' position.

Źródło światła zastosowane w tej oprawie oświetleniowej powinno być wymieniane wyłącznie przez producenta lub jego przedstawiciela serwisowego, lub podobnie wykwalifikowaną osobę.
The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.
